How We Work

- If you would like to see an **example of our work** we are more than willing to send you a demonstration.
- We will **request to meet up with you before the big day**. This is so we can get to know exactly what you envisage for your video and make sure we film it in the style you require. It is also necessary for us to attend the wedding / partnership rehearsal, this is to make sure we position ourselves in an appropriate place and to make sure we can cover all the angles that are needed.
- We do request that you **check with the venue** you are using that filming is allowed as some venues do have rules and regulations. They will probably charge you for allowing us to film, but it is imperative for you to check otherwise you will end up paying for our services, but we won't be able to film.
- On your special day you will have **2 polite female operators smartly dressed** to make sure we blend in as much as possible.
- We will keep in the background and just **let your day unfold naturally**. We will never ask you to retake or stage anything.
- The input we require from you at the editing stage is a **list of music** you would want to include in the video.
- We always have **2/3 cameras and 2 operators**.
- **We do require the groom / partner to wear a microphone**, this is wireless and very discreet. If you decide not to wear a microphone your vows won't be clear and this will really bring down the production value of your video.
- **We are a gay friendly company** and are pleased to offer this service to you and want you to feel comfortable using a company that understands your needs.

If you have any questions or wish to request a sample of our work then please do e-mail us at info@ajemproduction.co.uk and we will respond as soon as possible.
